

Moon Dance - Driving Directions

From Vancouver

Take the Horseshoe Bay - Langdale Ferry (remember the return fare is free) and follow the Sunshine Coast Highway 101 through Gibsons and Sechelt and on to the Pender Harbour area. It is **63km** from the Ferry Terminal to Madeira Park which is the town center for Pender Harbour.

Continue on past the Madeira Park turnoff on Hwy 101 for another **5.1km** and turn left onto Spriggs Road.

From Vancouver Island

If you're traveling from Vancouver Island, take the ferry at Little River Terminal in Comox to the Westview Terminal in Powell River. The passage takes one hour and fifteen minutes and the ferry docks in the heart of Powell River.

Upon leaving the ferry terminal follow Highway 101 south **31km** to the Saltery Bay Terminal and take the Powell River - Sechelt Ferry to Earls Cove.

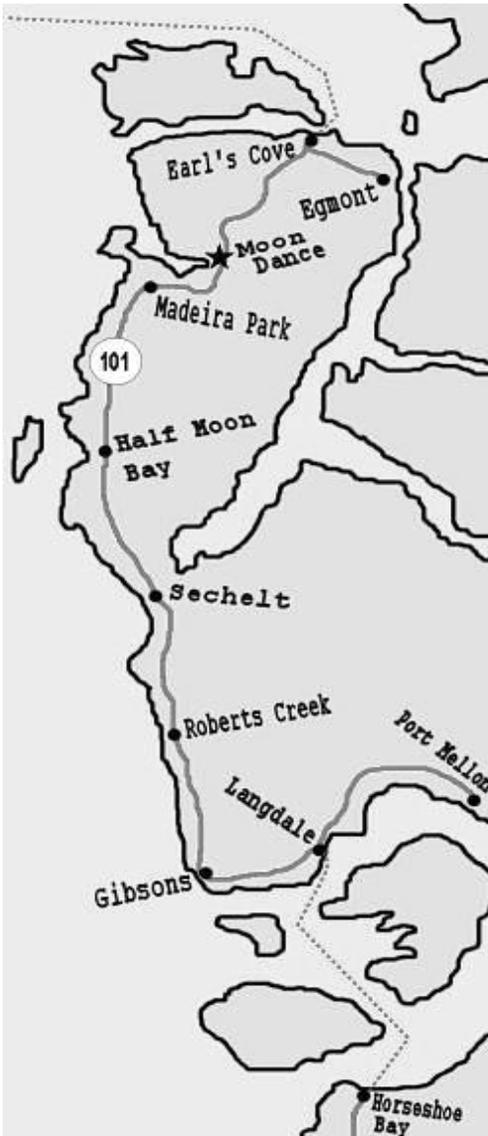

Back on Highway 101 continue south **18km** past Garden Bay Road junction. Just past the PetroCan Station turn right off Hwy 101 onto Spriggs Road.

Once you are on Spriggs Road...

...follow the pavement and turn right onto Little Mountain Rd. and then left on Mt. Daniel View Rd. Approx. **1.1km** from the Spriggs turnoff look for a stone column with signage for *Moon Dance* and turn right down the gravel lane.

If your visit is to The Shed take the first lane immediately to the left. For The Cabin and The Perch stay right and follow the lane for 200 feet and turn left at the next lane with the split rail fence entry and another *Moon Dance* sign. This lane will lead you down past the power shed on your left to the fork/turnaround. Keep to your right for The Cabin or go left for The Perch. The Cabin parking area opens to a well-lit footpath that will lead you down to Moon Dance Cabin (approx. 80 paces). The Perch parking is at the foot of the ramp.

You're there!

Moon Dance Accommodations - Opening and Closing Instructions

Keys

- Information with regard to the Key Lock Box and combination for the dates you will be staying will be provided to you by email the week before your arrival. If for some reason you find you have not received the information by this time (the only reason we can think of would be if you changed your email address), please be sure to contact us so we may give this information to you.
- Any problems call Brent at 604-841-5806 (on site 2-4 days per week) or Kathleen at 604-841-5805.

Opening

- Adjust the thermostats and turn on the ceiling fan for faster heat distribution.
- There is a separate thermostat in the bathroom.
- The exhaust fan in the bathroom is programmed to come on for 15 minutes 5 times a day for humidity control so don't automatically blame your partner for leaving it on!
- Put Moondance on the CD player, take the deck chair cushions onto the porch, sit, take a deep breath... and... begin... to... relax.
- After you have relaxed read on.

Important Stuff

- Moon Dance plumbing is on a septic system so it is very important that the only thing going down the toilet is toilet paper and your bodily excretions. No paper, no sanitary napkins, no food stuff, no objects and no chemicals that could kill our much appreciated buddies the micro-organisms!! Remember, once our buddies are done everything eventually gets pumped up hill to the septic field and sprayed out holes 1/8 inch in diameter. So thank you for not plugging the system!
- Please be good neighbours and keep all volumes down. Normal conversations can be heard clear across Oyster Bay so try not to share your conversations or music with everyone on the Bay.
- Moon Dance is on a long narrow 4.5 acre dog leg lot which extends from the pavement, across the common lane with the neighbours, and down to the water. Our frontage is 112 feet so we ask that you respect our neighbour's privacy and not stray far beyond either side of the Cabin above the high tide line. Of course mucking about in Oyster Bay below the high tide mark is greatly encouraged. Check out the dozens of local trails and other activities as well.
- If you decide to rent a kayak or canoe, or bring your own, remember that Oyster Bay is a drying tidal basin so keep track of your tides or you'll be dragging the kayak home! Please be careful, be safe!!
- Bring a cell phone if getting away from it all doesn't include no phone contact. Telus, Clearnet and Rogers mobility have been used on site.

- Try the tap water. Our well is 375 feet deep and the water is glacial blue and very tasty. The flow is excellent for your needs but we ask that you be conscious of waste.
- Please don't feel the need to spend your time cleaning, however, if you have a spill just use water and one of the orange cloths, located under the kitchen sink, in the shower stall, and by the soaker tub. Please do not use anything but water when cleaning the floors or any other surfaces. If you have a spill on the furniture, you'll find the **Folex** under the kitchen sink.
- You will find extra kitchen linens, laundry supplies, toilet paper and paper towels in the cupboard.
- If you go swimming in Oyster Bay, please be sure to use the beach towels located in the closet. Thank-you.

Closing

- Set the thermostats to 10 degrees.
- Turn off the ceiling fans.
- Close all windows.
- Turn off all Audio Visual units.
- Move the deck chairs back to the window wall of the porch and leave the cushions inside on the kitchen chairs to dry.
- Check all taps are closed, toilet is not running and dishwasher, washer and dryer are finished their cycles and shut off.
- Turn off all lights except the exterior floods.
- Return the keys to the box by the kitchen window.

Have a safe drive home. We hope you enjoyed your stay. We look forward to your comments and seeing you again at Moon Dance.
